## 4<sup>th</sup> International and 16<sup>th</sup> National Conference on Industrial Problems on Machines and Mechanisms

December 20-22, 2026

Amrita Vishwa Vidyapeetham, Bengaluru, India

### Sponsorship Brochure

**IPRoMM** (Industrial Problems on Machines and Mechanisms) conference is one of the flagship conferences organized under the aegis of the Association for Machines and Mechanisms (AMM), a member organization of the International Federation for the Promotion of Mechanism and Machine Science (IFTToMM).

This conference aims to bring out the problems faced by industries in the fields of mechanisms and machine sciences, and the solutions developed to overcome them by academia, industry or through their collaborations. It will have technical sessions for presentation of accepted research papers, short poster-cum-presentations, keynote lectures, industry-academia workshops, competitions, and tutorials.

The **4<sup>th</sup> International and 16<sup>th</sup> IPRoMM** is being organized by the Dept. of Mechanical Engg., Amrita School of Engineering, Amrita Vishwa Vidyapeetham, Bengaluru, India, on December 20-22, 2026.

**Amrita Vishwa Vidyapeetham** is one of India's leading universities for excellence in education, research, innovation, and societal impact. Established in 2003 and inspired by the humanitarian vision of Sri Mata Amritanandamayi Devi (Amma), the university has grown into a globally recognized centre for higher learning with campuses across India.

**Amrita School of Engineering, Bengaluru**, a constituent school of Amrita Vishwa Vidyapeetham, is a premier institution dedicated to excellence in engineering education, research, and innovation. Located in India's technology hub, it offers state-of-the-art facilities, industry-oriented curricula, and active collaborations with leading national and international organizations, making it a fitting venue for hosting IPRoMM 2026.

### Participants / Delegates for IPRoMM conferences consist of the following (representative list):

- Faculty members, scientists, and students from premier national and international institutions.
- Representatives from government agencies and R&D organizations such as DST, CSIR, DRDO, ISRO, and related establishments.
- Industry professionals involved in machine design, product development, robotics, automation, and advanced manufacturing.
- Technology providers, equipment manufacturers, software developers, startups, and industrial solution providers.
- Members of professional bodies including IFTToMM, AMM, ISME, and TRS.

### Sponsors of IPRoMM 2026 conference will have the following benefits:

- Direct access to researchers, industry leaders, and decision-makers.
- Opportunities for industry-academia collaboration and technology transfer.
- Visibility among potential customers, collaborators, and future talent.
- Brand promotion through conference materials, exhibition spaces, and networking events.
- Engagement with a focused community working on challenges in machines, mechanisms, robotics, and manufacturing technologies.
